I added a few comments to the attached document after a preliminary review. If Arizona continues towards 404 assumption, I would want to take a more in-depth look at the statutes and rules.

Thank you, Simma, for pointing out enforcement-related issues.

Hi, I have many questions and notes in the margins in the attached document. I would like to send to the region this morning at 10. If you see anything I should not have included please let me know.

Obviously, this is draft and not well reviewed but it is a start.
